

# Serv-U File Server 15.2 Release Notes

**Release date:** June 11, 2020

These release notes describe the new features, improvements, and fixed issues in Serv-U File Server 15.2. They also provide information about upgrades and describe workarounds for known issues.

If you are looking for previous release notes for Serv-U File Server, see [Previous Version](#) documentation.

Additional Serv-U documentation includes:

- [Serv-U Installation and Upgrade Guide](#)
- [Serv-U 15.2 Administrator Guide](#)
- [System Requirements](#)
- [Getting Started with Serv-U](#)

## New features and improvements

Serv-U 15.2 is a UI update and security focused release, including:

- Increased password security: every user needs to create a new password
- Improved Management Console user interface
- Chinese and Korean characters support in file transfer
- Performance and stability improvements
- Improved Internet Explorer compatibility
- 3DES algorithm deprecations

## Previous releases
